Hanna Slivankova

Front-End Developer

Hello, I am a person who has a strong passion for programming. I have experience in creating SPA with React/Redux/TypeScript. Now I am improving my skills in this direction and expanding them with new technologies.

I'm planning to study Node.js because my next focus is to become a Full-Stack Developer. And also I have an interest in boosting my English to C1 level. I spend my leisure time on Codewars or speaking with native English speakers. Open to your suggestions.
